LIST 3.a.1

SECTION 3.a MASTER ROOMS LIST

INSTRUCTIONS: Below is a master list to be used for reference in assigning room names. (This list is the same as that used to for school models.) All room names are listed in a pull-down menu on the LRFP Project Website. In order to shorten the length of the lists, the rooms are classified into "space type categories" and "disciplines" as listed below. More than one variation can be created for a single room name by describing different characteristics (room size, support spaces, fit-out) for that space.

If a needed room name does not appear on the list, submit an RFI on the LRFP Project Website.
